

VintaCon Version 2.5

VIRTUES AND VICES WEEKEND!

October 14-16, 2005 In the scientifically fertile Livermore Valley

Why the name Tesla? Well, because we're all a bunch of scientific geniuses, aren't we? Plus, we had to stay close to home, not spend as much money, and still keep the con running...therefore, we'll traverse Tesla Road, looking for, and finding complex liquids that will make us tingle with excitement, much like the Tesla Coil would! (Ow! Well maybe not that tingly...) But it's onward to vices, and virtues.

Our virtues and our failings are inseparable, like force and matter. When they separate, man is no more.
Nikola Tesla (1857 - 1943)
